

Samaan Sharbak

Date of birth: 06/08/1999 | **Place of birth:** Latakia, Syria | **Nationality:** Syrian | **Phone number:** (+30) 6949340949 (Mobile) | **Email address:** samaansharbak2@gmail.com | **Address:** Nestoros Teloglou 1, 54635, Thessaloniki, Greece (Home)

ABOUT ME

Web Development student seeking an internship or professional training opportunity to apply and enhance my skills in front-end and back-end development using JavaScript, HTML, CSS, and Bootstrap. I am currently exploring modern frameworks such as Angular, Node.js, and React to build dynamic and responsive web applications. I am eager to contribute to a professional team, gain hands-on experience, and grow as a developer while supporting the company's goals.

EDUCATION AND TRAINING

2024 – CURRENT Θεσσαλονίκη, Greece
WEB DEVELOPMENT IEK DELTA 360

Learning to work on the front and back end of websites using multiple languages with group and individual projects.

ΘΕΟΛΟΓΊΑ Θεολογική Σχολή ΑΠΘ

PROJECTS

Portfolio

Mobile-friendly portfolio crafted with pure HTML/CSS/JS. Features animations, clean design, and responsive layouts—no frameworks, just focused frontend work."

CURRENT
GitHub

- Expanding the portfolio with new web development projects currently in progress.
1. Interactive drum kit built with HTML, CSS, and JavaScript. Play different drum sounds by clicking on buttons or pressing specific keys on your keyboard. Smooth button animations and smart...
 2. A simple web-based dice game built with HTML, CSS, and JavaScript. I used smart randomization techniques in JS to simulate realistic dice rolls and create an engaging user experience.
 3. A fun and responsive web project built with HTML, CSS, and Bootstrap, designed to help dog lovers connect with new and interesting dogs in their area.
